

Dupré Logistics, LLC

Always forward thinking.

Dupré Logistics, LLC

Established in 1980, Dupré Logistics operates more than 500 trucks, employs over 1,200 professional drivers and serves strategic capacity services, site and private fleet services, and energy distribution services. Dupré operates from hubs near major metropolitan areas and serves all of the contiguous 48 states and parts of Canada and Mexico.

Judge's Comments:

“From two trucks to five hundred and over 1,200 employees, Dupre has an impressive track record of growth and safety innovation.

The nationally recognized logistics provider is rooted in the transportation of oil and gas materials. In the early days of the company, founder Reggie Dupré had difficulty finding a reliable transporter to deliver fuel to his small service station in rural Louisiana. Frustrated with being overlooked by higher-volume haulers and fully prepared to tackle the problem himself, he founded Dupré Transport, LLC, in Lafayette as a specialized hauler of bulk liquid commodities. Dupré began transporting his own product and soon was asked to provide services for other independent retailers.

Over 30 years later, Dupré Logistics has placed itself as a leader in safety, innovation and technological super-user within the industry. The three major business groups

recognizable today are Site & Private Fleet Services, Strategic Capacity Services and Energy Distribution Services. In addition to the companies' over 1,000 staff members and drivers, Dupré has established a network of 2,000 preferred carriers through a stringent carrier approval process. Having received national recognition for its safety initiatives from the ATA and numerous client groups, Dupré uses its "Always Forward Thinking" mantra in partnership with its varying clients. The companies' capabilities include: shale crude distribution, results-based supply chain management™, HazMat specialists, safety and CSA consulting, third party logistics. From its humble beginnings as a 2-truck fuel carrier, Dupré has grown to be an innovative forward thinker in the industry.
