

QC Energy Resources

We are a trusted partner to the oil and gas industry. QC Energy Resources (QC Energy) was born out of the belief that transportation and logistics vendors were underserving the oil and gas sector. Since our start in 2010, we've quickly grown into a major player in the industry and count some of the largest oil and gas companies in the country among our clients. QC Energy is a wholly owned subsidiary of Quality Distribution, Inc. (QDI), an operator of the largest bulk tank network in North America.

Judge's Comments:

“ They are clearly an industry leader in trucking and taking care of the water as it gets to it's landing area.

“ Highly organized trucking fleet specializing in oil field needs, largest tanker fleet in NA, 3 offices in NE region. Provided detail description of solving fluid hauling logistics challenge faced by large customer in the Marcellus Shale. Reduced carrier base from 26 companies to 6 reducing hauling cost per barrel from \$4.00 to \$2.30, moving 54,000 barrels of fluid. Active safety control and monitoring and Community involvement. Leader in fleet monitoring and tracking.

At QC Energy, we are committed to maintaining a balance between servicing the oil and gas industry and being responsible stewards of the environment. We will not sacrifice quality of work, safety, or integrity for a profit. Through transparent and open communication, QC Energy strives

to build long-term relationships with employees, customers, partners, and the community.

We believe that it's people who make the difference. QC Energy has many years of combined transportation, logistics, and oil and gas experience.
