

E&B Natural Resources Management Corporation

E&B Natural Resources Management Corporation is a Bakersfield, California based independent oil and gas company.

Judge's Comments:

“ I was very impressed in looking at E&B's presentation with regards to their High Heat Illness Prevention Plan that goes significantly above and beyond regulatory requirements. The measures that they are implementing, I am sure, are making a difference in employee well being. Also, the incident and injury rates are trending downward indicating that other H&S programs that they have implemented are effective.

“ Strong production and reserve growth. Decent safety record. Great community service. High level of direct community engagement. \$150k in annual donations. Involvement with Tragedy Assistance Program for Survivors is outstanding and exemplary.

Once a small oil and gas company producing 900 boe per day from a handful of legacy fields, E&B has grown rapidly over the past five years. Employing a balanced approach of mature field revitalization, acquisitions, and exploration, E&B now produces over 10,000 boepd from 25+ oil and gas

fields located in California, Louisiana, Kansas and Wyoming. With over 300 dedicated employees focused on all areas of growth and production, E&B is one of the largest privately owned oil and gas companies in California and is a recognized leader within the exploration and production industry.
