

Scientific Drilling

Scientific Drilling International (SDI) is an independent service provider offering a complete high accuracy navigation and drilling solution. SDI is committed to a customer experience that makes it easy to do business. It's our goal to work safely and with minimal environmental impact while offering you a wide range of technologies and solutions to solve your downhole challenges.

Judge's Comments:

“ A very strong showing in operational excellence and use of new drilling technologies. Scientific's other strong points were around HSE, minimizing environmental impact and community service. Clearly experts in Drilling Excellence.

“ This year's most technically driven company with the best products I've seen this year.

We are proud to design, engineer and manufacture directional drilling and production logging equipment targeted for the oil and gas, geothermal, coal bed methane and mining applications. Our global footprint, coupled with

our independent spirit, ensures our long-term commitment to our customers' success. Scientific Drilling makes it Easy for you to do business while targeting what's important.
